

December 2022

Comments from some Boyne Falls School parents:

“It was great to get to know the teachers better and it further convinced me how passionate the teachers are about the kids they teach.”

“Our kids LOVED receiving the letters of encouragement. I can see that influencing them in the future to write notes of encouragement to others. In fact, one of them had started moving our "Elf on the Shelf" and one morning it had written a note saying that the Elf thought they were cool.”

“We wrote poems together, we read together, and all my kids asked for books for Christmas! Even our 13-year-old!”

“I've encouraged my kids to write or draw their feelings more and even found an amazing journal for our daughter for Christmas to help her with all of her dramatic 3rd grade feelings.”

“I wish the project had been more than 6 weeks!! It flew by and I feel like it could offer a lot more!”
